The CPUC will hold a public meeting, chaired by President Peevey, on the issue of climate change. The purpose of this meeting will be to move "beyond energy procurement" and to begin to identify best practices for all CPUC regulated companies (electric, natural gas, telecommunications, water, and transportation). Opportunities to reduce greenhouse gas emissions related to business operations include fleet vehicle efficiency, building efficiencies, and overall reduction of energy consumption. The U.S. is the world's largest greenhouse gas emitter and is responsible for approximately 25% of the world's emissions. California policymakers and businesses have the opportunity to proactively address this issue, to demonstrate effective leadership, and to make a significant contribution to emissions reduction. Invited presenters include representatives from the academic, research, business, insurance, shareholder activist, and state government organizations. Business and industry leaders will also be asked to respond to a recent CPUC summary paper on the subject. In addition, the IOUs should be prepared to present their current and anticipated efforts to address climate change. Information about the meeting, including a link to the discussion paper and the agenda are posted at [www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting](http://www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting) and can also be found on the CPUC's homepage at [www.cpuc.ca.gov](http://www.cpuc.ca.gov). All utilities are asked to RSVP to confirm their attendance and to discuss their presentations. To RSVP, and for further information, please contact Lainie Motamedi, CPUC Division of Strategic Planning, at (415) 703-1764 or [lrn@cpuc.ca.gov](mailto:lrn@cpuc.ca.gov).

	I95-04-044	Investigation on the Commission’s own motion into competition for local exchange service.

**Summary:** On February 4, 2005, William C. Harrelson, Senior Counsel for MCI, Inc. (MCI), met with Aram Shumavon, advisor to Cmmr. Brown, and Lester Wong, advisor to Pres. Peevey, in two separate meetings in San Francisco. Also present was Richard Severy, Director of MCI, and, in the meeting with Lester Wong, - Chris Poschl, interim advisor. Written materials (attached to the notice) were used during the meeting with Aram Shumavon. Harrelson and Severy discussed the proposed decision (PD) regarding batch hot cuts (HC). Harrelson expressed his hope that it would be reissued either alone or with an alternate soon. Harrelson explained that the Commission had jurisdiction to resolve HC issues and that the PD did not reach beyond the scope of the Commission’s authority. Harrelson explained that it is not just ‘batch’

HCS but also seamless, efficient, timely and economical real time ongoing HC processes that are essential to the prospects for mass market competition. Harrelson indicated that the Commission's decision on HC issues would have a serious impact on whether MCI pursues competition in California using unbundled loops in combination with its own switching facilities. Harrelson and Severy urged the Commission to move ahead with the workshops based on the PD or at least bring the batch HC issues to a vote soon.

A99-05-029

Southern California Gas Company, for authority pursuant to Public Utilities Code Section 851 to sell certain real property in Playa Del Rey.

**Summary:** On February 8, 2004, Brian Catalde, President of Paragon Communities (Paragon), met with Pres. Peevey in San Francisco. Also present were Peter Arth, advisor to Pres. Peevey, and Edward W. O'Neill, counsel to Paragon. Copies of the Draft Environmental Impact Report (EIR) and Paragon's motion for interim decision, filed in this proceeding, were used. Catalde and O'Neill discussed the long delay in completing a Final EIR. O'Neill explained that A99-05-029 has been pending for nearly six years. O'Neill stated that the Commission found no impacts from either the proposed sale or possible future development of the lots that could not be fully mitigated. O'Neill urged that priority be given to promptly completing the Final EIR and issuing a final decision approving the sale. Catalde added that he has never been involved in a residential development project that has been studied as extensively or in as much detail as this application has, and urged the Commission to approve the application without further delay.

**Summary:** On February 4, 2005, William C. Harrelson, Senior Counsel for WorldCom, Inc. (MCI), met with Aram Shumavon, advisor to Cmmr. Brown, and Lester Wong, advisor to Pres. Peevey, in two separate meetings in San Francisco. Also present was Richard Severy, Director of MCI, and, in the meeting with Lester Wong, - Chris Poschl, interim advisor. Harrelson and Severy discussed the issue of how the Commission should address the common cost markup remand from the 9<sup>th</sup> Circuit. Harrelson made clear that while MCI took no position on the issue of the SBC UNE Pricing 'true-up' for the period of time before September 23, 2004, MCI was a party to and was very interested in proper Commission implementation upon remand of the mandate of the 9<sup>th</sup> Circuit. Harrelson stated that there is inadequate notice and an inadequate record to determine finally or prospectively compliance with the 9<sup>th</sup> Circuit remand in the 'true-up' phase of this proceeding. Harrelson pointed out that adoption of SBC California's proposal to determine and finally dispose of the remand issues in the context of the true-up proceeding would be unlawful.

Peevey, in two separate meetings in San Francisco. Also present was Richard Severy, Director of MCI, and, in the meeting with Lester Wong, - Chris Poschl, interim advisor. Written materials (attached to the notice) were used during the meeting with Aram Shumavon. Severy emphasized the importance of reducing intrastate switched access rates quickly. Severy urged the Commission to eliminate the NIC and TIC completely and immediately. Severy also urged the Commission to proceed quickly beyond this initial step, by moving intrastate access rates to parity with the incumbent LECs' interstate access rates.
